CC&R Section 3.22 Animals

No animals other than a reasonable number of generally recognized house or yard pets or horses shall be maintained on any property within the Properties and then only if they are kept bred or raised thereon solely as domestic pets and not for commercial purposes.

CC&R Amendment 5 Number of Horses per Lot

Article III, Section 3.22 shall have the following provision added to the second paragraph: On Lots less than one (1) acre in size, two (2) horses are allowed and on lots larger than one (1) acre in size, three (3) horses shall be allowed. In no event shall swine be permitted on a lot.

Rule 3.22 Animals

- a. The Association has determined that in order to ensure quiet and peaceful enjoyment of the property, no loud, obnoxious or foul-smelling animals are allowed.

- b. Horses are specifically allowed, to a maximum of two or three, depending on lot size. Lot size will be assumed from the plat description of the lot. Horses must be maintained in a corral of suitable construction, approved by the Architectural Committee, and totally on the owner’s property.

- c. No animals may be maintained or corralled on the greenbelts. Animals may be on the greenbelts. Trails are marked and maintained for that purpose on each greenbelt.
- d. All animals must be kept and maintained wholly on the property of the owner and in a clean, well fed, and odor-free state. Excessive odors and / or insects such as flies, gnats, and mosquitoes that are generated or encouraged by the animals and / or their byproducts will be cause for a nuisance violation under Property Rule 3.9.
- e. Consistent with Coconino County’s Ordinance prohibiting loose and vicious dogs running-at-large in unincorporated areas of the County that may pose a risk of injury and disease to humans, other animals, and the dogs, themselves, the Association has determined that dogs are not allowed to roam free in Starlight Pines.

Coconino County has stated:

As per our Ordinance Dog at Large, a dog is considered at large if it is not restrained by a leash, rope, cable, chain or a suitable enclosure that ensures the dog cannot jump over or dig out of. A dog is considered to be at large on its own property if not restrained, and the owner can be charged with dog at large. The reason for this is because the owner does not know what the dog is doing if not being supervised. The County enforcement agent may issue citation(s) to the owner, or other person acting for the owner, when the dog is at large and violation fine(s) ranging from \$25.00 to \$750.00.

Rule 3.22 Enforcement Procedures

- a. When an Association Member observes a **vicious** dog running loose, the Member should immediately contact the local Deputy Sheriff’s Office.
- b. When an Association Member observes a dog running loose that appears **not** to be vicious, the Member should:
 - i. Try to determine on which property the dog belongs,
 - ii. Notify the Coconino County Animal Management Office in Flagstaff, and
 - iii. Complete a Loose and Menacing Dog Complaint Report with the Starlight Pines Property Rules Committee (PRC) and file with the Community Manager.
- c. The PRC will process the Complaint following the steps in “How Complaints Are Processed.”
- d. If, while investigating the Complaint, the PRC determines that the Complaint is valid or that a pattern of this activity is occurring, the PRC will follow the steps in “How Complaints Are Processed” and send a Noncompliance Letter to the dog’s owner, giving the owner 15 days to respond.
- e. If the case goes to a hearing, Coconino County will call each complainant to testify per the Complaint Reports received.

How Complaints Are Processed

1. The Community Manager or the appropriate committee receives a signed, written complaint. E-mail is acceptable. The Community Manager forwards the complaint to the appropriate committee, i.e., Architectural Committee, Property Rules Committee.
2. The committee investigates the complaint. The committee maintains a **Temporary File** on the complaint until they have achieved a resolution or the offender is issued a Violation Notice at the committee's request. This file is to include the original complaint with complainant's name redacted, any and all communications, including memos of verbal communications, all written communication pertaining to the complaint, and photos, as required. At the time of resolution or issuance of a violation notice, the committee sends the Temporary File to the Community Manager for filing in the offender's Lot file.
3. At the discretion of the committee, the committee can open verbal communications with the alleged offender. If this results in a satisfactory resolution of the complaint, the committee places a written report of the verbal communications in the Temporary File. The committee also sends a copy of the written report to the complainant and the alleged offender's file. If the complaint is not valid, the committee writes a memo of the results of their investigation and sends it to the complainant and the alleged offender. Nothing is sent to the Community Manager to be placed in the files.

If the complaint is valid, and verbal communication cannot occur, or does not result in a resolution, the committee sends a **Noncompliance Letter** to the offending lot owner with **Timelines** for coming into compliance. If the noncompliance letter results in a satisfactory resolution of the matter, a memo to that effect will be issued to the offending lot owner and a copy will be placed in the Temporary File. The temporary file can now be sent to the Community Manager for filing in the offender's file.

4. For valid complaints, if the offending lot owner does not resolve the problem within timelines given in the Noncompliance Letter or makes no attempt to communicate with the committee, the committee directs the Community Manager to send a **Violation Notice** to the offending lot owner with **Timelines** for coming into compliance. The Violation Notice may include a **Violation Fine**, if one is listed on the "Committee Crosswalk, Enforcement Procedures, and Fine Schedule" The temporary file can now be sent to the Community Manager for filing in the offender's file.
 - A. The Violation Notice indicates the sender to be:
 - i. Starlight Pines Homeowners Association
 - ii. Community Manager, using the current Community Manager's name
 - B. The Violation Notice identifies which committee initiated the violation.
 - i. _____ Architectural Committee
 - ii. _____ Property Rules Committee

- C. The Violation Notice includes a Compliance Timeline.
- D. The Notice includes a **Violation Fine** if one is listed on the “Committee Crosswalk, Enforcement Procedures, and Fine Schedule.”
- E. A copy of the **Violation Notice** and **Fine** is also sent to the committee for their follow-up.

- F. The Community Manager notifies the Board of Directors and the appropriate committee when the Violation Notice Timeline has expired. The committee then reports to the Board as to the resolution of the matter. If the violation is not resolved within the timelines set by the Violation Notice and there is no challenge made by the offending lot owner, the Board of Directors takes appropriate action. If the matter is resolved, the committee sends a memo to that effect to the Board, who then forwards it to the Community Manager for filing in the offending Lot Owner’s file.

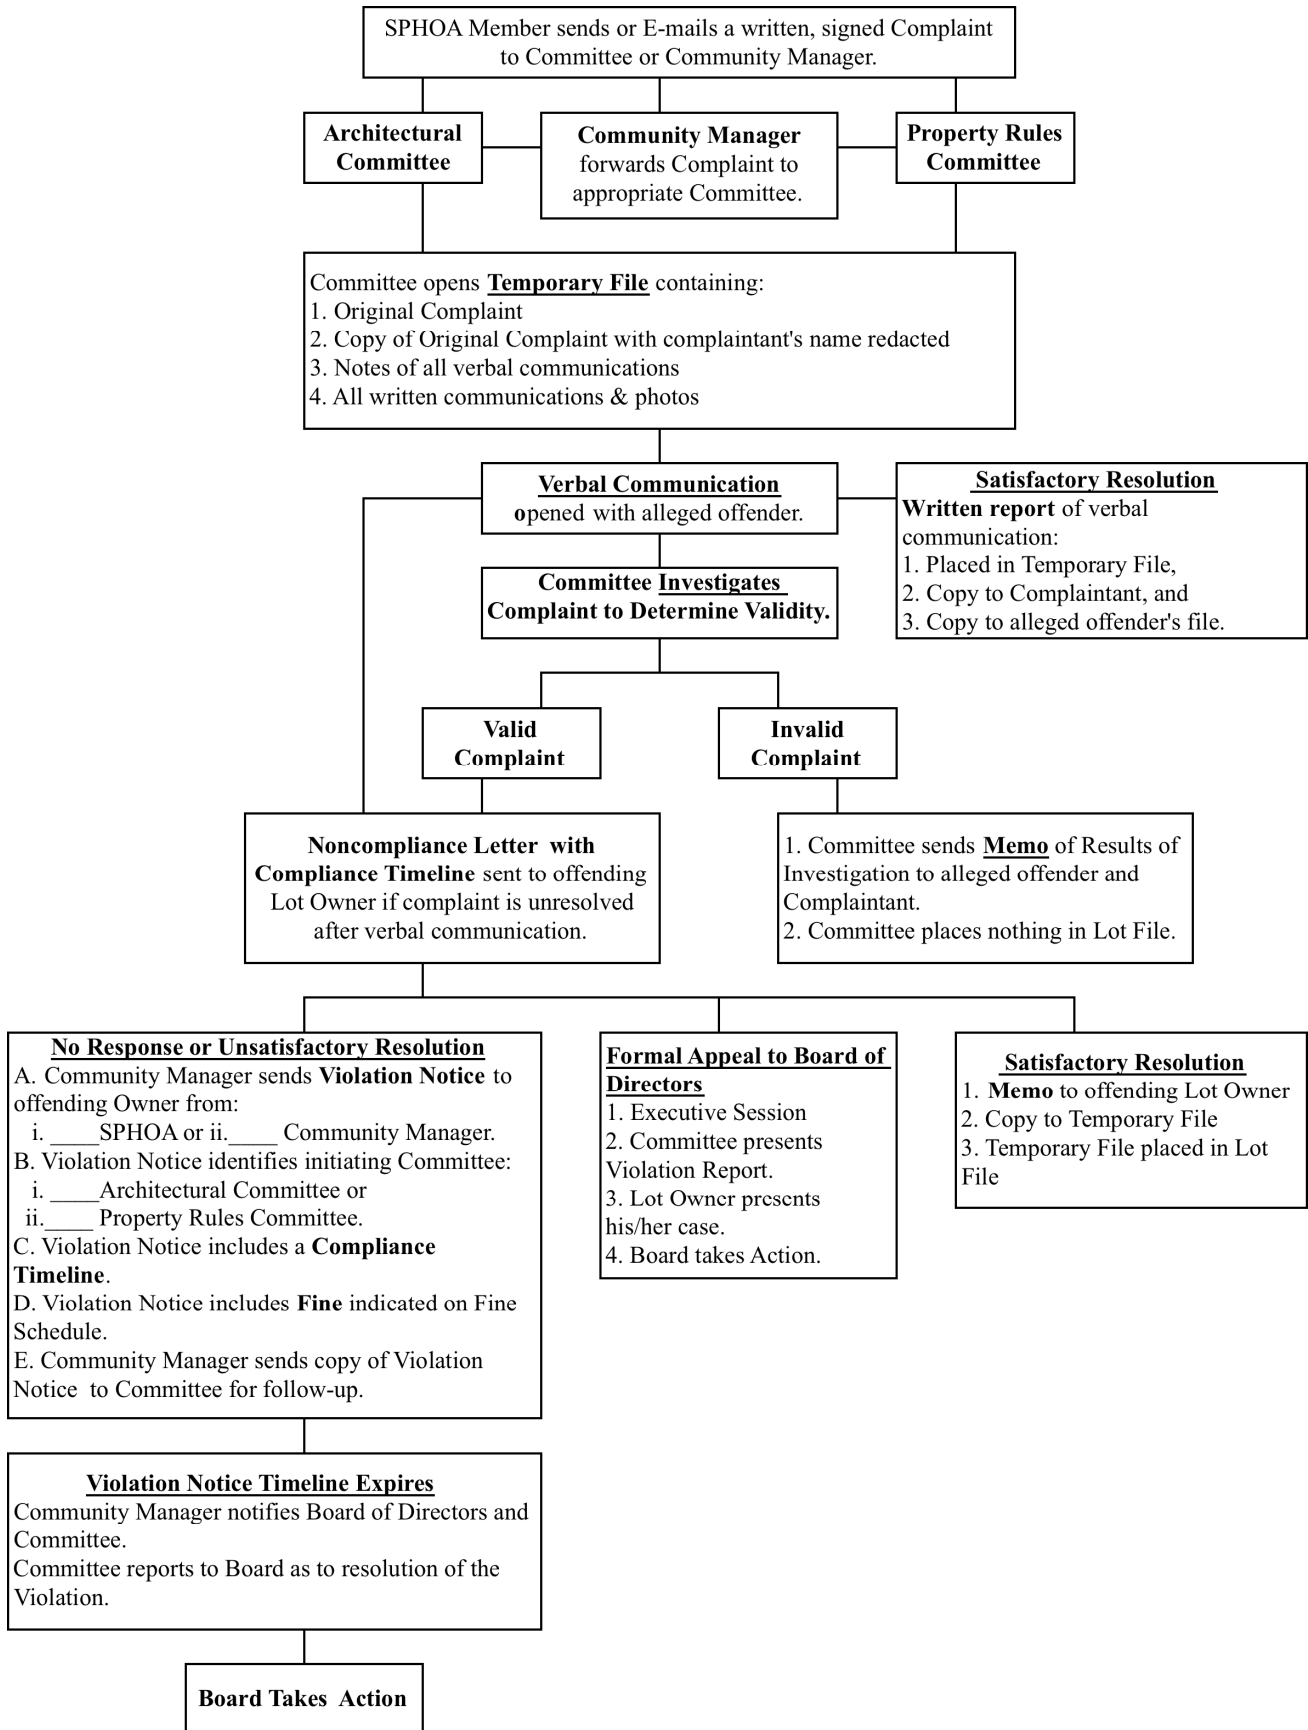

- G. If the Lot Owner in violation wishes to challenge the validity of the Violation Notice, the lot owner contacts the Community Manager in writing.

- H. The Community Manager arranges a formal meeting in executive session to include the Lot Owner, the Committee, and the Board of Directors. The Committee presents their report of the violation. The Lot Owner states his/her case.

- I. The Board of Directors will listen to both sides, ask questions for clarification, and take appropriate action.
